NO. 131.

A writer in the Courier of October 8th, treating of the potato rot, says: " But the world with the people in it, have been and still are going too last to apply the remedy; for who would have the patience in this racy age of speculation and money-making, to "cramp his genius" over the tedious precess of three or four long years with the view to perfect the tuber from the natural seed of the plant; but until this is done we may obeying the law of nature; the unceasing process of annihilation and reproduction " I have seen a similar recommendation in the Waldo Signal, and other papers. Is this giving the

And wais the rough path which they weatily tread. The moun of the widow, while shedding her tears. The sighs of the Triendless-the homeless-the sad inventive genius upon perpetual motion. -1 and, and we to bless them, and bid them be glad! Within the past thirty years, I venture to af-

Then, oh, when the toils of this life shall be o er, firm that more than thirty thousand new varieties have been produced in N. England, from the natural seed; and where are they? Not one in a thousand fived long enough to be christened; they died unaumed.

New and Interesting Discoveries in South The National Intelligencer contains a long Soon after the forming of Agricultural soa ... in convenient terms to the purchaser. Title good letter from Mr. Pickett, a Laina, commenting ties in this country, the Essex Agricultural Seor particulars enquire of the subscriber living on upon discoveries of extraordinary ruins, said to ciety of Massachusetts, offered a premium for a have been found by Judge Neito in the province of Chicapoyas, while on an exploring expedition. In making a survey of the country, he found, at Ceutap, a building of the most extraordinary seed of the potate plant. The late Hon. Timcharacter, which he describes as a wall of hewn othy Pickering went largely into the culture of stone 560 feet in width, 3,600 feet in length, and them, and wrote a pamphlet upon the subject, "This edifice being solid in the interior for the describing the process of cultivation from year

whole space contained within 5,326,000 feet or to year, which was printed by the Society. But, cumference, which, it has to the before mention with all this effort, nothing was produced to supconvenience of his stoves. All in want are advised to give him a call, and thus save money, and enhance their comforts and convenience.
